

And She Was (Brenna Spector)

When Brenna Spector was a child, her older sister stepped into a strange car never to be seen again. This traumatic event triggered in Brenda a rare neurological disorder that enables her to recall every detail of every day of her life, except - cruelly - that dark day when her sister disappeared. Nowadays Brenna puts her unusual skill to use as a missing persons investigator and its while shes trying to find local woman Carol Wentz that she discovers connections to another childs disappearance, ten years earlier. Before too long a link to her own past emerges. Could this be the answer shes been hunting for all these years?Crackling with suspense and intrigue, And She Was is the first of a sensational new thriller series starring a heroine like no other.
