

How does it feel being twenty-six and about to become a multimillionaire? In a city fueled by money lust, a powerful CEO and an ordinary working man come together by a twist of fate to go head-to-head in a heart-pounding scheme of greed and deadly corporate conspiracy. New York City telephone repairman Sean Macklin has a good enough life, but he wishes he could get his hands on some extra dough and move with his disabled wife to Florida. So when he inadvertently taps into a secret conversation between an investment banker and a dot-com entrepreneur, and before his conscience can tell him otherwise, he turns his insider information of an imminent merger into a tidy profit through day trading. As his penchant for subversive stock deals grows, so do the risks. But the day he taps into the line of a chemical company's CEO, a man with the power to order a clean merger -- at any cost -- Macklin's get-rich-quick plan starts to spiral desperately out of control. Hearing more than he should, he calls on his brother, NYPD officer Ray, for help. In a world where nothing is as it sounds, the Macklin brothers become the bait in a cutthroat game of blackmail, corruption, and violence. And Sean Macklin's dream of a better life becomes a fatal nightmare.... In the suspense-charged, noir tradition of Richard Price and Jim Thompson, Michael Ledwidge's electrifying thriller pulses with raw, urban energy. From Manhattan boardrooms to Bronx streets, *Bad Connection* traces the evil depths to which men will sink to protect their business interests.
