

Body of Lies: A Novel

The novel made into the major motion picture released October 2008, starring Leonardo DiCaprio and Russell Crowe: Clever [and] well-paced, Body of Lies is hard to put down. John Miller, Wall Street Journal CIA soldier Roger Ferris has come out of Iraq with a shattered leg and an intense mission to penetrate the network of a master terrorist known only as Suleiman. Ferris plan is inspired by a masterpiece of British intelligence during World War II: He prepares a body of lies, literally the corpse of an imaginary CIA officer who appears to have accomplished the impossible by recruiting an agent within the enemys ranks. This scheme binds friend and foe in a web of extraordinary subtlety and complexity. When it begins to unravel, Ferris finds himself flying blind into a hurricane. His only hope is the urbane head of Jordans intelligence service. But can Ferris trust him?
