

Butterfly Kisses: Gifts of Wisdom and Laughter from Our Children

Who hasn't suppressed a giggle or wiped away a tear after hearing a child's perspective on life or loved ones? Mary Ann Casler and Tona Pearce Myers went to schools, playgrounds, churches, and family gatherings to collect the gems that make up *Butterfly Kisses*. The stories, accompanied by kids' illustrations, reflect a wide variety of backgrounds and beliefs, but they all convey the joys and difficulties inherent in growing up. The book is divided into sections such as *What I've Learned So Far*, where children offer such sage advice to younger siblings as *If you lie down with dogs, they might fall asleep on your lap*. About God, one child quips, *I know that God loves everybody, but he never met my sister*. Offering laughs as well as unexpected insights, *Butterfly Kisses* shows that children, in spite of their seeming indifference to the adults around them, are indeed listening to and often repeating what grown-ups have to say.
