

## Concert of Ghosts

International bestselling author Campbell Armstrong sweeps readers back to the psychedelic sixties in an atmospheric, page-turning thriller about a fugitive ex-hippie who must run for his life when he is caught up in a political conspiracy. Many years ago, Harry Tennant managed to escape San Francisco's Haight-Ashbury hippie scene relatively intact, although his memory of that time is largely wiped out. Now Harry's peaceful life is overturned when his upstate New York marijuana farm is raided by the police and he is thrown in jail. Released on bail, Harry is contacted by Alison Seagrove, a reporter investigating a conspiracy connected to Harry's hazy past. When she shows him an old photo of himself and four others, Harry barely recognizes himself and can't remember his friends' names or why the photograph has global political implications. To avoid prison and stay one step ahead of the killers pursuing him, Harry undertakes a chilling journey back to Haight-Ashbury to unlock the mystery behind his shattered memory.
