

## Martian Conquest: The Adventures of Mari Shu 2

About the book: Mari Shu, a factory drudge in the year 4000-something, must choose how to protect her sisters, her purity, and her own conscience in a bleak futuristic society that's been polluted by smog, rampant commercialism, tacky jumpsuits, sexual perversions, unjust socioeconomics, interstellar travel, and inconsistent use of the Oxford comma. In this second jubilant outing, Mari Shu decides to desert Olde Earth for the unfamiliar comforts and sexual practices of Mars...and possible elevation to the elite Martian rover class. Warning: Book is a spoof and contains offensive material. Butloads of boatloads of offensive, vulgar, disrespectful, and possibly triggering material. Sexual, political, economic, racial, physical, typographical, religiously, trying to hit all the big ones. Please make sure to sign your correct name to the hate mail so we can give proper credit in the follow-up volume entitled, The Hate Mails to Mari Shu. Warning 2: What that means is this entire book is a spoof. A joke. A hoot. It wasn't born out of hatred of any aspect of genre fiction and culture or even hatred of human beings but instead out of love, true love. No, seriously, quit laughing. Oh, wait, you're supposed to laugh, because it's parody. You pick, okay?
