

Paciente 1980

The novel conveys these experiences through a fantastical, even mythical, rendering of the documentary form. Although mired in, in the protagonists words, feces and trash, there is a truth here.

It is a truth that unfixes space, enabling distant sites to intermingle; that unfolds non-linearly, making time collapse in on itself; that lies below the ground and under the skin. Betrayals, wounds, and trauma disrupt the distinction between interiority and exteriority, such that, in the novel, violence places out in bodily topography, psychic space, and language itself.
