

When a twenty-year-old murder case comes back to life, a detective must race against his failing sight to unravel the mystery. When Allison Wallis was beaten to death, Detective Francis X. Loughlin found the killer—Julian Vega, a teenager with a crush on the murdered girl. Using his natural sense of empathy, he cooed up to young Julian, convincing him to give a confession that would put him away until he was thirty-six. Twenty years later, Julian is finally out of jail, attempting to remember how to live in a world without bars, and Detective Loughlin is still on the job, his sight fading, though his instincts are still sharp. But when Allison's blood appears at a new crime scene, everything he thought he knew about that long-ago murder is called into question. Was it really Allison they buried? Was Julian actually the killer? And if he wasn't, who else is in danger now? This ebook features an illustrated biography of Peter Blauner including rare photos and never-before-seen documents from the author's personal collection.
