

## Human Amusements

Offering further evidence of his astounding range as a novelist, the bestselling author of *The Colony of Unrequited Dreams* and *The Navigator of New York* crafts a hilarious and moving paean to the dawn of the television age. Henry Prendergast grew up on television not merely watching it, but starring in the wildly popular childrens show *Rumpus Room*. Cast in the roles of Bee Good and Bee Bad by his mother Audrey, the shows creator, Henry came of age along with the new medium one that would soon propel his family out Torontos middle-class life and into the tabloids. Henrys father Peter, a would-be novelist, refuses to have any part in his wifes burgeoning television empire, but commits himself instead to the task of being a walking, talking mostly scathing reminder of the familys humble beginnings. Then, on the heels of *Rumpus Room*, Audrey dreams up *The Philo Farnsworth Show*, loosely based on the life story of the young teen credited with inventing the tube and starring Henry in the lead role. Rapidly amassing a cult-like following of Philosophers, the show challenges the Prendergasts anew. Forced into increasing isolation by a fervent media, they must work harder than ever to not let success get the best of them.
