

Gateway to Barbados (Gateway to the Caribbean)

Gateway to Barbados is a unique multimedia travel guide to the Caribbean island of Barbados. The content covers all forms of accommodation (hotels, luxury villas, apartments), how to get here, car rental, beaches, festivals, shopping, the history of the island, climate, currency, government, sporting life (sailing, deep sea fishing, golf, cricket, diving, watersports, polo), arts and crafts, restaurants, nightlife, weddings and points of interest. Through the use of text, still images, music and video we have created a compelling multimedia product that embraces the best aspects of traditional print guidebooks and of the Internet. The detailed information also includes automatic links to web sites and e-mail. There are virtual tours of hotels, restaurants, beaches and villas providing the user with an unparalleled means of visually absorbing what the island has to offer. Suitable for PC platforms the user-friendly interface makes it the perfect format for an international audience. With a combination of point and click buttons and a comprehensive search engine, the Gateway to Barbados CD-ROM provides a thorough and speedy means to browse through the abundance of information.
